Profile

Flutter developer with 3 years of expertise in creating user-friendly and robust mobile applications, complemented by backend and cloud development skills. AWS certified, with app presence on both App Store and Google Play Store. Highly adaptable to new technologies and driven by a passion to provide simple solutions for complex problems.

Experience

Mobile Developer	Bennett&Ranville	*Grand Rapids, MI*	**06/2023 – Present**

- Managed the complete application lifecycle: build, deploy, test and release
- Delivered applications for hospitals with over 800 rooms for nurses and patients
- Worked on real-time updates using **Microsoft Azure**, **.Net**, **Signal R, Flutter**
- Built **CI/CD** pipelines for pushing to **AppCenter**, **TestFlight**
- Created reusable components as packages for the team pushed to **Pub.dev**
- Introduced practices like **BLoC architecture**, **unit testing** using **Mocktail**

Mobile Developer	Layer	*Dublin, IE*	**06/2021 – 05/2023**

- Implemented features such as a chatbot, flows of transfers and payments
- Developed a keyboard extension written in **Swift** and **Java**
- Fixed bugs, wrote documentation, worked with **Jumio SDK** and **Apple Pay**
- Wrote unit tests using **Mockito** and reviewed code

Full Stack Developer	Zahera	*Beirut, LBN*	**03/2021 – 05/2021**

- Added translation, upload and edit image features using **TypeScript**
- Worked with **Node.js**, **Redis**, and **PostgreSQL**, and maintained the applications

Cloud Intern	Kloudr	*San Francisco, CA*	**06/2019 – 08/2019**

- Deployed WordPress applications on **Google Cloud**'s **GKE** and **GCE**
- Used **Cloud SQL** (MySQL, PostgreSQL) for PHP applications

Education and Certifications
